

# St. Peter's Centre

## Management Committee Visit Report

**Name:** Susanna Mackie

**Date:** 16/10/2019

**Time:** 9.00

**Focus of Visit:** Online safety session with Year 11s

**Staff Involved:**

Becky Tejura, Katie Cuell

### Observations / Comments:

- *Delivered online safety session to 5 year 11 girls with focus on Digital Footprints*
- *Session went really well even though one student left the premises mid-way through but was managed effectively by the staff on site. Engagement of the other students was high and they all participated well*
- *Session delivered using lesson saved on VLE – modified from previous year to stay current and up to date.*
- *Feedback from the students:*

Initials	One thing you learnt	Something you will do differently	What did you think of the session
F S	I learnt some new apps that are highly popular worldwide, I also learnt more about privacy settings and what my profile would look like from the outside world	Think twice about what is private and what isn't and think before I put something out in social media	I really liked it
H S	I learnt that everything you put online can be tracked	Don't give out my details to people I don't know or websites that may not be safe	I really liked it
B K	About privacy	Go private	I really liked it
C G	That when you apply for a job they look through your social media	Keep all my personal stuff to myself and not post it all on social media	I really liked it

Actions:

- *Happy to support/deliver further online safety sessions as appropriate or needed*

Signed:

*Susanna Mackie*
